In Case SCE Declares a Nuclear Plant Emergency

- Journalists would be directed to an emergency news center the utility and its community and state partners would establish at SCE's Saddleback Service Center, 14155 Bake Parkway, Irvine, Calif. Plant status updates as well as technical briefings would be available throughout the emergency.
- Journalists also could call the company's 24/7 media hotline for information and interviews – 626-302-2255.

SCE Speakers for Educational and Community Events

- Mayra Alvarado, for SCE speakers on nuclear generation, 949-368-3214, mayra.alvarado@sce.com

- Iris Hosea, for SCE speakers on other topics such as electricity safety, renewable and alternative energy, energy efficiency and conservation, and electricity past, present and future, 626-302-7929, iris.hosea@sce.com

SCE General Customer Service

- 800-655-4555 for service issues
- 800-611-1911 for power outages
- www.sce.com

- Bob Stiens, 714-973-5548, bob.stiens@sce.com

Liaison with California Government Officials

- Manuel Zamorano, 916-441-4059, manuel.zamorano@sce.com
- Delette Olberg, 916-551-1376, delette.olberg@sce.com

Liaison with U.S. Government Officials

- Amy Ford, 202-393-3075, amy.ford@sce.com

Contacting the Nuclear Regulatory Commission Public Affairs Office

The U.S. Nuclear Regulatory Commission (NRC) was created as an independent agency by Congress in 1974 to enable the nation to safely

San Onofre Unit 2 under construction in the 1980s

use radioactive materials for beneficial civilian purposes while ensuring that people and the environment are protected.

- Victor Dricks, 817-860-8128, vld@nrc.gov, www.nrc.gov

Contacting the Nuclear Energy Institute

The Nuclear Energy Institute is the policy organization of the nuclear energy and technologies industry and participates in both the national and global policy-making process.

- Steve Kerekes, 202-739-8073, sck@nei.org, www.nei.org
